

St. Albans Water Customers

Heavy rainfall on April 30 caused a water main break. The District has been struggling to maintain adequate water pressure. To avoid low pressure, the Saint Albans Water and Sewer Authority is hereby issuing a mandatory lawn water irrigation restriction. All residents are required to shut off their irrigation systems at this time. Any continued water irrigation usage will result in the irrigation meter being shut off. Residents will be notified when the restriction is lifted. Thank you for your patience. If you have any questions please call the District 636-742-5200.
